

Please be informed that I benefit very much by listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a large variety with great quality and very limited commercials that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
